Mi-Co
Flexible mobile data capture
Forms that fit

# State & Local Agencies choose Mi-Forms!

Mi-Forms provides flexible and powerful field inspection process automation capability. Mi-Forms mobile data collection solutions transform field and site inspection processes, providing strong efficiency and effectiveness benefits and improving availability of critical data for reporting and analysis. Mi-Forms allows enterprise customers to optimize field inspection data collection processes with powerful and user-friendly electronic data capture, real-time data validation, workflow and secure communication to critical systems.

Mi-Forms features include:

Any Device: Mi-Forms works with the devices you want to use; iPads, Android tablets, and Microsoft Windows devices, PCs, Anoto Digital Pens with paper, Virtual & On-premise Servers, laptops, Workstations.

Online and offline: Unlike Web-only solutions, Mi-Forms works in remote field situations when a hot-spot is not available.

Workflow & Audit Trails: An enterprise-class administrative server for central management of users, forms & data flows, version control, audit trails and routing workflows.

"Using Mi-Forms Mobile-Forms software on Tablets, we now operate with a much more streamlined process, and are able to generate better revenue streams as a result of readily available registration and license information."

-Dwight Seal,
Regional Manager, NC Dept. of Agriculture

Mi-Forms for Government Field Inspections

Touch Friendly: Mobile friendly checkboxes, drop down lists, toggles, switches and text field customization (dates, masks, validation) to make collection easy and reduce mistakes.

Speech Recognition & Capture: Hands-free e-Forms, speak naturally and SayIt™ voice recognition & capture will fill in the fields for you.

Handwriting Interpretation: Write with a digital pen or your fingertip, and Mi-Forms will interpret your handwriting. An easy way to collect signatures and field notes.

Photo Capture and Inking: Add photos with mark-up and notes. Mi-Forms can even prompt the user for photo capture with workflow rules.

Barcode Scanning, GPS Tracking and RFID: Rich data capture comes standard and is easy to add to any template.

Your Business Rules: Business rules may be added to a form to enforce quality data collection. Such rules avoid missing data, flag potential errors or submission of bad data vastly boosting accuracy

Intelligent Feedback: The form designer can specify real-time feedback during data collection. The feedback may occur when data is entered, calculations are performed or when business rules are violated.

Flexible integrations: Send data directly to your line of business applications, databases, document management systems and more — using web-services, flat-file exchange, APIs, SDKs and many other methods.

Public Facing Forms: For citizens to complete, anonymously on HTML5 web browsers so agencies can collect critical information from their constituents and route them into Mi-Forms workflows and into databases for quick reporting.

"One Government agency has already demonstrated a 60% reduction in data collection time using the Mi-Forms System."

- Jeri Lassiter
American Society of Microbiology
